INFORMATION ABOUT CIVIC GOVERNMENT

Statutory Authorities :

There are nine Municipal authorities that have been charged with the responsibility of carrying out the provisions of the Mumbai Municipal Corporation Act 1888

- (a) **Corporation**
- (b) **Standing Committee**
- (c) **Improvements Committee**
- (d) **Brihanmumbai Electric Supply and Transport Committee**
- (e) **Education Committee**
- (f) **Ward Committees**
- (g) **Mayor**
- (h) **Municipal Commissioner**
- (i) **General Manager of the B.E.S. & T. Undertaking.**

Apart from them, as per amendments made in Section 37 (I) of the Mumbai 'Municipal Corporation Act, 1888', provides for the office of the Deputy Mayor in the Mumbai Municipal Corporation.

Section 37 - IA (1) of the 'Mumbai Municipal Corporation Act, 1888', respectively, for the Leader of the Opposition and the Leader of the House, who also enjoy Statutory status.

Apart from the Statutory Committees, the Corporation has powers to appoint Special Committees including Women and Child Welfare Committee, under Section 38A (1) of the 'Mumbai Municipal Corporation Act, 1888'. These committees consist of 36 members each.

In addition, as required under Section 38 of the Said Act, Consultative Committees have been appointed by the Corporation viz. 1) Grants-in-Aid Committee 2) Suvarna Jayanti Shahari Rozgar Yojana Implementation Committee 3) Maharashtra Culture Display Committee 4) Assurance Committee 5) Planning Committee 6) Review Committee each for City, Eastern Suburbs and Western Suburbs 7) Scrutiny Committee - relation to - i) Mumbai District Aids Control Society ii) Mumbai District T.B. Control Society and iii) Women Centered Health Project and 8) Reconstruction and Redevelopment of old Buildings Committee.

By virtue of the Indian Constitution and for the purpose of making Municipal Administration more public oriented and decentralize powers, seventeen Ward Committees have been established. Each Ward Committee consists of the councillors representing the electoral wards within the territorial area of the wards committee, the ward office Incharge of the said wards committee and other members not exceeding three, nominated from amongst the members of recognized non-government organization and community based organisation engaged in social welfare activities working within the area of the said Wards Committee. The main functions of Ward Committees are to dispose of quickly the matters of local citizens relating to the water supply, cleanliness and other basic civic amenities, etc. grant administrative approval and financial sanction to the plans for municipal works to be carried out within the territorial area of the Wards Committee costing upto Rs. 5 Lakhs.

Tree Authority which is mainly concerned with protection and preservation of trees in Urban area, consists of Municipal Commissioner (Ex-Officio Chairman), 13 elected Councillors, Chairman, of Markets and Gardens Committee (Ex-Officio Member) and 10 nominated members. It functions under the Chairmanship of the Municipal Commissioner.

SEWERAGE OPERATIONS DEPARTMENT

Sewerage Operations Department operates and maintains the sewerage Network, Sewage Pumping Station, Sewage Treatment Plants (STP) and Waste Water Treatment Facilities (WWTF) brought in place by Sewerage Projects and Mumbai Sewage Disposal Projects departments in seven Sewerage Zones of Mumbai City. The sewage is conveyed through existing underground Sewer Network, collected at various Satellite Pumping Stations, treated at eight different Sewage Treatment Plants and disposed into nearby Sea/Creeks.

The department is also responsible for repairs and rehabilitation of existing sewer lines. The department has installed the sewage recycling plants of smaller capacity in the premises of sewage pumping stations for the reuse of sewage water for non-potable purposes. The department also provides transport services to various sections of Water Supply and Sewerage Disposal department.

The Department falls under the Budget 'G' of the M. C. G. M.

Sewerage Operation Department is mainly divided into following sections according to the nature of work.

- i) Main sewer and pipe sewer section responsible for conveyance of sewage.
- ii) Pumping section responsible for collection, treatment and disposal of sewage.
- iii) Transport section responsible for providing transport services to various sections of W. S. S. D. Dept.
- iv) Civil section responsible for repairs to sewer lines & civil structures of S. O. Dept.
- v) Planning & Construction section responsible for rehabilitation of Sewer line, rising mains of pumping stations.

There are seven zones in Mumbai viz. Colaba, Worli, Bandra, Versova, Malad, Ghatkopar, & Bhandup. Each of seven zones has a terminal sewage pumping station and sewage treatment plant.

The sewage collected through the sewerage network spread all over Seven Zones is conveyed to the terminal Pumping Station and treatment facilities through a network of sewers and satellite pumping stations for treatment and disposal.

The sewage treatment plant at Colaba , Worli, Bandra provides primary treatment and the sewage discharged into Arabian Sea through Marine Outfalls. Similarly, the sewage at Malad is discharged into Malad Creek after primary treatment. The sewage treatment plants at Versova, Bhandup and Ghatkopar, provides secondary treatment through aerated lagoons and treated sewage is discharged into Malad & Thane creek.

The main sewer & pipe sewer section undertakes yearly programme for systematic de-silting and cleaning of the sewer network of Mumbai City for smooth flow of Sewage thereby minimizing the complaints of sewage overflow on the roads.

To keep the sewer lines in smooth working condition, the sewer lines are periodically inspected, desilted and cleaned at pre-decided intervals under a systematic cleaning programme. To prevent direct contact with sewage, the cleaning work is mechanized for which various sewer cleaning machines/ equipments as detailed below are used with all safety norms.

1) Jetting Machine	:	05 Nos.
2) Suction Machine 6.5 m ³ capacity	:	11 Nos.
3) Suction Machine 1.5 m ³ capacity	:	20 Nos.
4) Power Bucket Machine	:	20 Pairs
5) Choke Machine (Power Rodding)	:	26 Nos.
6) High Capacity Suction and Jetting Machine with Filtration & Recycling System	:	15 Nos.
7) Grab type Manhole Desilting Machines	:	08 Nos.
8) Quick Response Vehicle	:	03 Nos.

The department has three centralized control rooms one each at City, Eastern and Western Suburb equipped with Power Rodding Machines and other equipments. These control rooms work round the clock, 24X7 to attend and redress all complaints received pertaining to the sewerage system.

Any complaint about the non functioning of the sewerage system is registered either with the concerned ward or with any of the three main sewer control rooms as stated above. The complaints are also recorded through the M. C. G. M. website or on the central complaint number 1916. Most of the complaints received are resolved within 24 hours.

Advance Locality Management (A. L. M.) :- The ALM concept envisages great involvement and interaction of MCGM with neighbourhood groups in the Wards. These groups co-ordinate with the respective ward office for a better management of civic related issues e.g. garbage, street adoption etc.

Under A. L. M. some small steps are to be taken as follows :-

1) REDUCE the waste generated and what is generated should be reused and recycled. This step is more applicable to dry (packaging) wastes.

2) STORE the wet and dry wastes in containers of choice e.g. bins, bags, drums etc. prior to disposal.

3) DISPOSE OFF the separately stored wet and dry wastes through separate channels of convenience.

4) Dry waste is disposed through scrap dealers rag pickers and local sweepers is done. About 260 tonnes of biodegradable waste is composted per day. Monthly meeting are conducted at ward level.

Approximately 5500 - 6000 MT. Solid waste of Mumbai City and Suburbs is received at Deonar and Kanjur Landfill site.

Deonar Dumping Ground –

At present Deonar Dumping ground receives about 550-600 mt. garbage per day.

For prevention of environment of Deonar Dumping Ground and surround premises following measures are taken-

- (1) M. C. G. M. has provided facilities of spraying of herbal based deodorant regularly on the surface of solid waste to control insecticides, flies etc. and provide water tankers for control of fire smoke. In Public health point of view, herbal based deodorant is sprayed on vehicles which transport garbage at check post.
- (2) As well as pipes are installed in dome of garbage for flaring of gases which controls fire incidents at dumping ground.
- (3) In order to control the pollution in and around the Deonar Landfill, the Air Quality Monitoring and Research Laboratory under the jurisdiction of the Mumbai Municipal Corporation conducts a monthly survey of the surrounding air. The color, smell, etc. of the water is surveyed. In addition, noise level surveys are conducted to control noise pollution.
- (4) After the successful completion of the project by M. C. G. M. the pollution in the locality will decrease and people of the nearby localities will benefit from the health point of view.

Kanjur MSW Processing Facility :-

As per order of Hon. High Court, Mumbai and Hon. Supreme Court the Government of Maharashtra handed over a plot admeasuring 141.77 hectares area at Kanjur to MCGM on 24.10.2005 for developing MSW disposal site. Out of said 141.77 hectares area, mangroves area admeasuring 23.36 hectares was retained by the Government of Maharashtra vide notification dtd. 02.04.2012.

Kanjur MSW Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (SEIAA) on 05.12.2014 for 65.96 hectares non CRZ area. Renewed authorization from MPCB is received on 19.08.2017

Further, Kanjur MSW Processing facility has received Environment Clearance from State Environment Impact Assessment Authority Maharashtra (SEIAA) on 29.10.2018 for Scientific processing of MSW in 52.45 hectares CRZ-III area.

At present, processing of about 3500 - 4000 TPD of MSW with bioreactor technology and about 1000 TPD of MSW with windrow composting technology is being carried out at Kanjur MSW Processing facility.

The measures that are being taken at Kanjur MSW processing facility to control the odour nuisance are as below :-

1. Operator of Kanjur MSW Processing facility is spraying Enzyme based deodorant round the clock on the MSW received for processing. Due to spraying of Enzyme based deodorant odour generation from MSW reduces drastically.
2. Operator of Kanjur MSW Processing facility has installed misting arrangement around Bio reactor cell to reduce foul smell.
3. The gas is also being used for generation of power which is at this juncture utilized for part of captive consumption. The flaring / utilization of landfill gas helps to reduce odour.
4. Inactive area of Bio reactor Cell is daily covered by the Operator of Kanjur MSW Processing facility with the help of soil to reduce foul smell.
5. The operator has set up control room to redress the complaints regarding foul smell in the area.

ASHRAY YOJANA CELL

Municipal Corporation of Greater Mumbai has proposed to redevelop 39 colonies of SWM Conservancy Staff quarters to provide service quarters with extended area (up to 300 sq. ft.) to approximately 28000 SWM Conservancy staff by using 4.00 F.S.I. Consulting Architects for City, Eastern Suburbs, Western Suburbs have been appointed for planning, designing and estimation preparing tender document for above redevelopment projects. In the year 2018-19 approval of Hon'ble Standing Committee and Work's Committee is obtained for redevelopment work at Gautam Nagar and Siddharth Nagar in city area & the work is in progress at both location.

The Plans for redevelopment at Rajwadkar Street, Tank Pakhadi and Kasarwadi in City area are approved and E-Tender for redevelopment at Tank Pakhadi, Kasarwadi and Hasanabad are invited. The work of transit camps at 9 places in City, Eastern & Western suburbs are completed. At Walpakhadi (B Ward) and P. L. Lokhande Marg (M/E Ward) the work of construction of transit camp is in progress. Also E tendering for the work of redevelopment under Ashray Yojana Cell is in progress.

SOLID WASTE MANAGEMENT PROJECT DEPARTMENT

New Project undertaking for scientific processing of MSW generated in Mumbai is as below:-

1. Development of Waste to Energy (WTE) Project at Deonar-

The tender for WTE was invited and evaluation of bids is completed. Further process of obtaining sanction is under progress. About 600 TPD MSW will be processed scientifically and 4MW energy will be generated from this project. Subsequently, MCGM is also planning to invite tenders for 1800 TPD WTE project.

2. Dumpsite Reclamation at Mulund Dumping Ground (MDG) in Mumbai by adopting suitable technology for existing garbage dump-

Work of Dumpsite Reclamation at Mulund dumping Ground (MDG) is awarded to M/s Biominning India Pvt. Ltd. After obtaining required clearances and mobilization of equipments and machineries required for the project, commencement of the project is started from 01.10.2019. Till date contractor has scientifically processed and disposed off about 1,14,200 MT of legacy waste.

It is planned to recover about 24 Ha. Land of Mulund Dumping Ground through this project in 6 years. M/s MITCON Consultancy & Engineering Services Ltd. is monitoring the project as Project Management Consultant (PMC).

3. Scientific processing of waste at Mulund (E) Near Airoli Bridge-

GoM has allotted about 32.77 Ha land to MCGM at Mulund (E) near Airoli Bridge for development of scientific waste processing facilities. However, physical possession of the land is not yet given.

After receiving the actual physical possession of the said land, MCGM will undertake works of development of scientific waste processing facilities.

4. Scientific processing and disposal of Waste at village Karavale , near Taloja -

GoM has allotted about 52.10 Ha land to MCGM at village Karavale (Kh.), Tal- Ambernath, Dist. Thane. Out of which advance possession of Government and admeasuring about 38.87 Ha has been given by GoM to MCGM along with existing encroachment thereon. Out of this government land, the physical possession of about 30 Acres of land has been given to MCGM on 16.02.2019.

This land will be used for inert disposal from project of Mulund Dumping Ground and as sanitary landfill for other MCGM's projects.

Land admeasuring about 12.20 Ha is private land and acquisition of the same is being done by Collector, Thane. After receiving physical possession of the said land, MCGM will undertake works for development of scientific waste processing facilities.

5. Collection, Transportation, Processing & Disposal of Construction & Demolition (C&D) Waste in Mumbai.

The MCGM is planning to process scientifically 1200 TPD Construction & Demolition (C&D) Waste. The tender For collection, Transportation, Processing & Disposal of C & D waste were invited. However, due to no response, tender is being re-invited.

INSECTICIDE BRANCH

Vector Control:

Mumbai is the pioneer city where Vector Control for Vector Borne diseases is dealt with professionally since 1923, Main function of Insecticide Branch of Public Health Department is control of Malaria vector mosquitoes, Dengue and Chikungunya vector mosquitoes, Filariasis vector (nuisance) mosquitoes, Fly control, Rodent control and Cockroaches control.

Anopheles stephensi is the only vector who transmits Malaria in Mumbai or any urban situation to control the urban malaria vector (*Ano. stephensi*) under the anti-malaria campaign, source reduction i.e. mosquito proofing of wells and tanks etc., Engineering methods, Introduction of larvivorous fishes under biological control method, Legislative (Legal) action and as a last resource use of insecticides and fumigation is done. Immediate effective control measures are carried out by controlling the *Ano. stephensi* breeding places. 'Mumbai Mantra' - a Five point programme is implemented in Mumbai since year 2011. This programme is highly successful and number of malaria cases in Mumbai has reduced considerably.

Dengue and Chikungunya vector, *Aedes aegypti* mosquito breeds in domestic and peri-domestic container i.e. drum, tyres, scrap materials, tins, cans, flower pots, dishes kept below the flower pots, artificial ornamental fountains, feng-sui plants, coconut shells etc. Therefore above mentioned temporary domestic and peri-domestic containers are either removed/destroyed or they are emptied and refilled at least twice a week. Besides general public is made aware of source reduction to control dengue by above mentioned measures. Sensitisation of office bearers of housing societies, commercial buildings, schools and Industrial estates is done through awareness programmes. Massive awareness programme is also taken up in slums and anti-larva measures along with fogging is done.

Nuisance (*Culex*) mosquitoes are controlled by insecticide spraying in covered storm water drains and nallahs through fogging and if possible spraying of larvicides. Channelization of Nallahs and removal of Hyacinths are some of the measures adopted to control *Culex* mosquitoes.

Rodent control and fly control programme are also carried out in all 24 wards of MCGM.

If demanded, Private properties are also given pest control treatment for antilarval and fogging work on payment of charges by the owner to MCGM.

Disaster Management Website:

The website 'dm.mcgm.gov.in' shows following information: High Tide - Low Tide time table, Weather forecast obtained from India Meteorological Department, Live weather parameters updated every 15 minutes, Traffic updates, Status of Local Trains, Status of Air Traffic etc.

Disaster Management App :

MCGM launched 'DISASTER MANAGEMENT' App available on Android & IOS Live rainfall data along with other weather parameters like Temperature, Pressure Humidity, Wind speed, Traffic diversions and Weather forecast from IMD etc. are available which is refreshed in every 15 mins. Also nearby Hospitals, Police Stations, Fire Stations and Ward Offices are geo tagged and this information is available for citizens. SOS button is provided for tracking distress victim. 20 video clips are available on mobile app for awareness of citizens.

Central Complaint Registration System(CCRS):

On-line complaint management system (CPWM Module) has started from 2000 to register civic complaints. Central Complaint Registration System is working 24 x 7. Civic Complaints pertains to MCGM are registered on phone no. 1916 in the central control room and sent to the concerned department through on line system. Citizen can lodged their complaints on line on MCGM portal i.e. <http://portal.mcgm.gov.in> Un-attempted complaints are automatically escalated to higher authorities such as Assistant Commissioner - Dy. Municipal Commissioner to Additional Municipal Commissioner and finally to Municipal Commissioner in a time bound manner.

During this pandemic period of affection of Covid-19 from March 2020, the work of management of ambulances, hearses & hospital bed allotment has been assigned to Disaster Management Department. For this “Covid-19 Helpline” for citizens of Mumbai has been started on existing Disaster Management short digit Helpline Number : 1916. On this Helpline IVR options were provided to address the respective queries of callers / Citizens. Now there are three options which are as follows.

- Option 1 : For monsoon related complaints
- Option 2 : Ambulance / Hearse requirement
- Option 3 : Hospital bed availability / Management for Covid-19 Positive Patient.

Emergency Support Function (ESF):

The Disaster Management Department has introduced the Emergency Support Function (ESF). The ESFs provide the co-ordination mechanisms among the various agencies. They provide the organization and process to plan, manage and co-ordinate specific response and preparedness activities common to any hazardous event that can result in an emergency, from the most frequent one to the most extreme one. Each ESF is headed by a lead agency and is supported by identified support agencies. These ESFs form an integral part of the Emergency Operation Centers, each of which will co-ordinate its activities from the Municipal Corporation of Greater Mumbai Emergency Operations Centre.

GIS Based Command and Control system:

For quick and quality response and for developing decision support tool Disaster Management Department (DMD) had developed a computer based application of technology involving spatial and attribute information. The relevant baseline data is collected from various stakeholders. GIS has emerged as effective tool in Disaster Management some geo spatial data and socio economic information is amalgamated for the better decision making and in handling a disaster or to plan for tackling disasters in scientific manner.

Prime objective of developing GIS is to help DMD for :

1. Pre- Disaster Planning & Preparedness
2. Prediction and Early Warning
3. Decision Support System
4. Damage Assessment & Relief Management

GIS combines layer of information on various themes to enable DMD to take the most appropriate decisions under given circumstance.

1. DMD generate maps both at micro and macro level indicating vulnerability to different extends under different threats perception .
2. Location likely to remain unaffected or remains comparatively safe could be identified.
3. Alternated routes to relief camps and important location in the event of disruptions of normal surface communication could be worked out.
4. Smooth rescue and evacuations operation can be properly planned.

City Institute of Disaster Management & Research Centre (CIDM), Parel :

In case of any mishap happens at MHO and EOC at 2nd floor is not accessible or cannot be operated, a backup control room has been setup at CIDM, Parel. This backup control is equipped with

Hotlines, Wireless communication, HAM Radio, Video Wall, ESF similar to EOC at MHO. CIDM provides comprehensive training on disaster management and first response to employee of MCGM/ Government / Private companies, School and College students, Medical practitioners, Police etc to aware them about scientific ways of disaster management.

3D Auditorium and an Art gallery is developed to show realistic information about of various disasters. The major objective of these facilities is to make visitors aware of disaster and its preparedness. Art gallery has interactive dioramas, display, photographs and information boards for awareness generation of various disasters.

Post Graduate Diploma in Disaster, Fire & Industrial Safety Management (PGDDFISM) :

Considering the importance of Disaster Management and ever increasing impacts of Disasters, CIDM has commenced a one year PGDDFISM course in coordination with GICED and Mumbai University. This course offers scientific learning of concepts of natural and manmade disaster and techniques of every stage in DM. The Primary aim of this course is to educate personal from Government agencies, industries regarding appropriate response to the impending disaster and reduce the impact on mortality and economy.

City Disaster Response Force (CDRF) :

On the basis of National Disaster Response Force (NDRF) at National level and State Disaster Response Force (SDRF) at State level it was proposed to establish City Disaster Response Force (CDRF) is establish at City level for Mumbai. The objective of formulating CDRF for Mumbai is to develop self sustainability for responding disasters like major fire, collapse structure, Chemical-Biological-Radiological-Nuclear etc. The personnel appointed for CDRF are from existing Security Force, Mumbai Fire Brigade, Doctores & Paramedics of MCGM and will be trained by National Disaster Response Force (NDRF).

SEWERAGE PROJECT DEPARTMENT

The sewerage system of Greater Mumbai is planned in seven zone viz, Colaba, Worli, Bandra, Versova, Malad, Bhandup & Ghatkopar. Planning & laying of new sewer lines and upsizing of existing sewer lines as per requirement by inviting e-tenders, issuing work orders is done by Dy. Engineer (Sewerage Project) Planning and Design section. The execution of works of sewer lines as per terms & conditions of the tenders is carried out under the supervision of Dy. Chief Engineer (Sewerage Project) Construction. The laying of sewer lines work is carried out by open cut method & Trenchless method. The Dy. Chief Engineer (Sewerage Project) Planning and Design section & Dy. Chief Engineer (Sewerage Project) Construction section work under Chief Engineer (Sewerage project).

Sewerage Project department is working under the control of Dy. Municipal Commissioner (Engineering) & Additional Municipal Commissioner (Projects).

ENVIRONMENT DEPARTMENT

Under National Clean Air Programme, Air Draft Action Plan has been prepared to improve the Air Quality of Mumbai City & brought to the level of Ambient Air Quality Standard, as per the guidelines of Central Pollution Control Board & Maharashtra Pollution Control Board & format provided by them, same has been approved by the C.P.C.B. on 24th October 2019. Being a co-ordinating agency, M.C.G.M. has informed all internal stake holders i.e. departments form M.C.G.M. & external stake holders to start the implementation of action points approved Air Action Plan. The M.C.G.M.

departments such as Ch. E. (Roads & Traffic), Ch. E. (SWM), Ch. E. (D.P.), Dh. E. (M. &E.) Executive Health Officer, Superintendent of Garden, Assistant Commissioners of all wards are the main internal stake holders responsible for implementing Air action plan. The R.T.O., Transport Ministry, Petroleum Ministry, Mining Ministry are the external stake holders has important role in the action plan.

In the action plan the stress is given on widening of road, to reduce the Traffic Jam by removing the bottle neck, synchronization of Traffic, introducing Intelligent Traffic Management System, to control the air pollution in Bandra-Kurla complex & Lower Parel area by reducing the vehicle emissions, to control the Air Pollution & subsequently Noise Pollution & concentrating on related abatement measures. This plan is time bound, The Grant in Aid of Rs. 10 crore is sanctioned to Municipal Corporation under National Clean Air Programme.

Noise Pollution Control :

In the matter of public interest litigation No. 173/2010 filed by Mahesh Bedekar V/s State of Maharashtra, as per the direction given by Hon'ble High Court Bombay for the compliance of same, the NEERI has carried out of Noise Monitoring and Noise Mapping of 55 locations in Mumbai City, Noise Mapping Report prepared for Mumbai City, the NEERI has given recommendations & suggestions to control Noise Pollution in Mumbai City and identified the role of various Government / Semi Government authorities to control Noise Pollution in Mumbai City.

As per directions of Member of Secretary of M.P.C.B. the environment department of M.C.G.M. has written letters to various concern outside department / authorities and various concern internal department of M.C.G. M. to submit monthly report to Environment department about action taken for implement the recommendations & suggestion made by NEERI. Thus environment department is coordinating the activity in the subject matter. As per the directions in the NEERI report the M.C.G.M. has formulated the City Noise Pollution Control Committee, which will formulate the guidelines to monitor & control the Noise Pollution in the Mumbai City.

Sub -Dept. -Air Quality Monitoring & Research Laboratory sub department :

As per 74th amendment of the constitution of India in 1992 (12th schedule) the Maharashtra State Government issued an ordinance amend Municipal Corporation Act - 1888 making "Environment protection, promotion of ecology and urban forestry" as an obligatory duty vide section 61 (ab) in the year 1994. And under the section 63-B of Mumbai Municipal Corporation (MMC) Act. 1888. Environmental Status Report is prepared and submitted every year before 31st July to the Corporation.

There are 4 working units in Air Quality Monitoring & Research Laboratory like Air Monitoring, Gaseous, Instrumentation & Mobile Monitoring Van. In the territory of M.C.G.M. Ambient Air Quality Monitoring network comprises of four manually operated monitoring sites viz. Worli, Andheri, Bhandup & Deonar.

Air Monitoring Unit :

To collect the samples of various pollutants from four fixed monitoring sites with the help of High Volume Samplers by this unit like Sulphur Dioxide(SO₂), Nitrogen Oxide(NO₂), Ammonia (NH₃)& Suspended Particulate Matters (SPM), temperature and relative humidity daily. The Air Quality monitoring is carried out as per the CPCB guidelines. Whenever the complaints are received from citizens, special monitoring is carried out and the reports are submitted to higher authority and concerns

Gaseous Unit

In this section samples of gaseous pollutants collected are analysed with the help of UV

Spectrophotometer and result of pollutants are compared with standards set by Central Pollution Control Board (CPCB) and Monthly / Annual report is forwarded to Dy. Ch. Eng. (Cicil) Env. Ch. Eng. (SWM) and HOD EPRC department (KEM). The annual report is included in Environment Status Report (ESR) yearly.

Instrumentation Unit :

Analysis of Polynuclear Aromatic Hydrocabans (Phenanthrene, Anthracene, Fluoranthene, Pyrene, Benzo (α) anthracene, Chrysene & Benzo (α) Pyrene) extracted from suspended particulate matter are analysed with the help of Gas Chromatograph. The Benzo (α) Pyrene is one of the carcinogenic pollutant.

The analysis of heavy metals [Arsenic (AS), Cadmium (Cd), Chromium (Cr), Copper (Cu), Iron (Fe), Nickel (Ni) & Lead (Pb)] extracted from suspended particulate matter are analysed with the help of Atomic absorption Spectrophotometer. Pollution Levels of Lead, Nickel & Arsenic are compared with standards prescribed by Central Pollution Control Board, This work has been stopped due to non availability of sufficient staff.

Mobile Van Monitoring Unit :

With the help of Mobile Van, monitoring is carried out at traffic junctions namely Wadala and Andheri. Similarly at the dumping grounds namely Deonar & Kanjur. The pollutants analysed are SO_2 , NO_2 , CO , O_3 , Pm_{10} , $\text{PM}_{2.5}$, Hydrocabans, VOC etc. Whenever the complains are received from citizens, special monitoring is carried out with the help of Mobile Van and the reports are submitted. Result of pollutants are compared with standards set by Central Pollution Control Board (CPCB) and Monthly Annual report is forwarded to Dy. Ch. Eng. (Cicil) Env. Ch. Eng. (SWM) and HOD EPRC department (KEM). The annual report is included in Environment Status Report (ESR) yearly. Monthly reports are published in local news papers.

SAFAR - MUMBAI :

The important project 'SAFAR-MUMBAI' is a joint venture of Municipal Corporation of Greater Mumbai (MCGM), Indian Meteorology Department (IMD) Mumbai & Indian Institute of Tropical Meteorology (IITM) Pune. Under SAFAR project various monitoring sites are installed at different places in the area of MCGM. Viz. Air Quality Monitoring Stations (AQMS) 10 Nos. Automatic Weather Station (AWS) 16 nos. & Digital Display Board (DDB) 13 nos.

Data received from 'SAFAR - MUMBAI' is further analysed by A.Q.M. & R Laboratory and Monthly (SO_2 , NO_2 , CO , O_3 , Pm_{10} , $\text{PM}_{2.5}$). Yearly report is submitted to concerned departments. The annual report is included in Environment Status Report (ESR) yearly. Under 'SAFAR -MUMBAI' program Status of Air Quality, Weather Forecast & Air Quality Index is now available to citizens on mobile app namely 'SAFAR - Air'.

Environment Status Report :

Under the section 63-B of Mumbai Municipal Corporation (MMC) Act 1888 Environmental Status Report is prepared and submitted every year before 31st July to the Corporation. Environmental Status Report for 2019-20 is already submitted to the corporation.

The administrative sanction has been received from higher Authority for the installation of 5 Continuous Ambient Air Quality Monitoring Stations in the jurisdiction of MCGM. The Tender process of the same is in progress. The air quality data is made available to college students and researchers of concerned environment field by Air Quality Monitoring Research Laboratory.

Civil Section :

Repairs work of SWM Project are being carried out by Dy.Ch.E.(C) Environment department as per requirement. In Mumbai city there are 46 Colonies for Conservancy Staff of Solid Waste Management department of MCGM where approximately 5592 workers are residing. The co-ordination of repairs related works of the building from these colonies and that of the building of Transport Garages and wherever necessary repairs of dumping grounds are being carried out by this section. The works of providing infrastructural facilities to Deonar and Mulund, Kanjur, Gorai Dumping grounds as well as proposed dumping ground at Karavale khurd, Taluka Ambarnath are in progress.

MUMBAI COASTAL ROAD PROJECT

The Mumbai Coastal Road Project (South) is one the most prestigious projects to be undertaken by M.C.G.M. The Southern Coastal Road Project of 9.98 km from Princess Street Flyover to Bandra Worli is proposed to resolve the traffic congestion in Mumbai in addition to providing several environmental friendly features to the city. The proposed Coastal Road having a 4+4 lane configuration comprises roads based on reclamation, Bridges, elevated roads and tunnels.

The Mumbai Coastal Road Project will reduce the travel time, decongest existing roads, reduce the air and noise pollution levels, improve public transport by a dedicated BRTS and also generate much needed additional green open spaces which will also decrease to CO_2 emission levels.

The Estimated Total Project Cost including Consultants fees of this work is about Rs. 12,950 Crs.

This Project is divided into three packages. Package I - From Priyadarshini Park to Baroda Palace and Package IV - From Princess Street Flyover to Priyadarshini Park is awarded to M/s. Larsen And Toubro Ltd. Package II - From Baroda Palace to Bandra Worli Sea Link is awarded to M/s. H.C.C.- H.D.C. (joint Venture). In the Coastal Road Project, Project Management Consultants for each packages have been appointed as Employer's Personnel for supervision of work and General Consultant has been appointed as Employer's representative for taking technical decisions.

This Project work is started in October 2018 and expected to be completed within 04 years. The required Budget Provision of Rs. 1,500 cr. has been made in the financial year 2020-2021.

The salient features of the Coastal Road Project are :

1. Length	9.98	km
2. Road on reclamation	4.35	km
3. Tunnel (3 Lanes, 11m dia.)	3.45	km
4. Bridges (4+4Lanes)	2.19	km
5. Interchanges (Princess Street Flyover Amarson, Haji Ali & Worli)	3	nos.
6. Interchange arm length (3 Lane)	15.66	km
7. Seawall Length	7.47	km
8. Reclamation Total Area (Excluding seawall Protection)	96.51	Ha.
9. Reclamation area (Gardens, Landscape, Parks etc.)	About 50	Ha.
10. Promenade 20 m width	11.66	km
11. Pedestrian Underpassess	16	nos.

12. Underground Carparks (Amarson, Haji Ali & Worli-3 nos.	1,856	Parking slots
13. Dedicated lanes for Ambulance & BRTS		
14. Bus Terminals, Worli	1	Nos.
15. BRTS Bus Bays	8	Nos.
16. Police Chowky	2	Nos.
17. Sophisticated Saccardo Nozzle Ventilation System		
18. To Minimize flood risk storm water drain outfalls with automated anti flood gates have been proposed.
